

I'm a Quality Kid

Vision To see our young people meet life challenges with peace

Mission To impact global peace by giving our youth the tools they need to cultivate peace with themselves, their families, friends and communities.

Description

“I’m a Quality Kid” is a school program for 4th through 6th grade students that helps them build good character traits to create more peace in their lives. The students are taught qualities of peace that serve as tools in everyday life situations. The character-building program will partner an elementary school with Educational Ambassadors (high school students) in the classroom, or an after-school program.
